"The greatest gift of the garden is the restoration of the five senses." - Hanna Rion

Summer Time Tips:

- Stay cool and avoid the mid-day heat. Limit activities to 15 or 20 minutes to help prevent against exhaustion. Avoid prolonged sun exposure between the hours of 10 am and 4m, this is when the sun's UV rays are the strongest.
- Stay hydrated! Do not wait until you're thirsty to drink water. Drink plenty of water before, during, and after activities.
- Protect your skin with sunscreen.
- Eat healthy. Eat more water based salads and fresh fruits.
- Dress cool by wearing comfortable, light colored clothes that let your skin breathe. Some examples are: shorts, tank tops, and/or sandals.
- Use fans, if air conditioning is not available in your home.
- Take advantage of the night breezes.
- Limit stove usage. Cooking or baking numerous meals in the stove can make the temperature rise in the kitchen.
- Rethink your lighting. Table and floor lamps give off excessive heat. To help keep the house cool, never turn on too many lamps in one room. Also considering switching to compact fluorescent light bulbs, which emit much less heat than standard incandescent light bulbs.
