Satellite Dish Policy

Due to the lack of cable companies that provide TV services on the Navajo Nation, Management has decided to permit satellite dishes. Prior to installation each resident must sign this policy that covers the rules and regulations governing installation and pay an addition \$100 damage deposit for the dish and its wiring.

1. The satellite dish may **NOT** be attached to the roof resulting in damage to the shingles.
2. The Resident may only have **ONE** dish for the home.
3. The Resident understands and agrees that he/she is financially responsible for any and all damages done to the exterior and interior of the unit by installing and having satellite service.
4. The wiring for the dish may not hang in a loose unsafe manner around the exterior or on the interior of the home. It must be stapled or held in place by brackets.
5. Wires are to be tucked neatly into corners, under eaves, or around the base.
6. At the time of move-out, the Resident is responsible for the removal of all wiring, staples, braces and the dish. Additionally all repairs for holes and damages will be deducted from the damage deposit. Any additional damages due over and above the \$100.00 deposit will be deducted from the Resident's security deposit.

The \$100.00 damage deposit was paid on _____ by
Money Order# _____, received by
_____.

The Resident has read, understands and agrees to comply with the rules and policies of the Satellite Dish Policy.
